

CORONAVIRUS (COVID-19) INFORMATION

While this situation is changing and evolving quickly, we are dedicated to the health and safety of our customers and employees.

For now, based upon the information available to us, risk remains low in our region and our message remains focused on prevention. There is currently no vaccine to prevent COVID-19, so the best way to prevent illness is to avoid being exposed to this virus. Our best advice is to follow the Centers For Disease Control (CDC) recommended everyday preventive actions to help prevent the spread of respiratory diseases.

Bank from almost anywhere

We offer a variety of options to conduct your banking transactions while avoiding face to face contact. Utilize our online and mobile banking features to check your balance, transfer money and send money remotely, pay bills and make deposits.

- Download the Security State Bank App in the Apple App Store or the Android App in Google Play
- Mobile Deposit
- Pay Bills Online using Bill Pay
- Pay Peers Online using PopMoney
- Call the Bank at 1.218.736.5485 or toll free at 1.888.736.5400 Monday-Friday 7:45 a.m. - 5:30 p.m. and Saturday 9:00 a.m. – 12 p.m. CT. Feel free to utilize our drive-up and walk-up options and night drop.
- Use your Debit Card where possible instead of Cash

What you can do to help prevent the spread and stay healthy

- Clean and disinfect commonly touched surfaces
- Use antibacterial wipes and hand sanitizers frequently and ensure there is enough supplies on hand
- Take steps to prevent the spread of germs
- Cover your nose and mouth with a tissue when you sneeze. The CDC says people with the flu can spread it to others up to about six feet away, mainly by droplets made when they cough, sneeze or talk
- Wash your hands with antibacterial soap as often as possible
- Wash your coffee or beverage cup with hot soapy water

Be aware of scams

Be on the lookout for phony emails, texts and phone calls as scammers are already committing fraudulent activity. Never share sensitive information. If you receive a suspicious email or text don't click on links or open attachments as they may be malicious. Always verify the authenticity of a website before donating or making a purchase.
